

Naveenkumar R

Full Stack MERN Developer

Ph: +91 9344279898 Email: naveenkumar302623@gmail.com GitHub: <https://github.com/Naveenkumar9898>

PROFILE

Full Stack MERN Developer with hands-on experience in building scalable and responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in frontend and backend development, REST API development, and database management. Strong knowledge of JavaScript (ES6+), component-based architecture, and performance optimization. Passionate about developing user-friendly applications and writing clean, maintainable code.

PROFESSIONAL TRAINING

[SDLC Skill Development Learning Center, Trichy] | [2026]

- Completed hands-on training focused on **React.js frontend development** and full-stack application architecture.
- Designed interactive user interfaces using **React Hooks, Functional Components, and JavaScript ES6+**.
- Integrated frontend applications with backend APIs using Axios and Fetch.
- Developed full-stack applications with authentication and database connectivity.

PROJECTS

Portfolio Website | React.js

<https://portfolio-naveenkumar.vercel.app/>

- Developed a personal **developer portfolio application using React.js** to showcase projects, skills, and professional profile.
- Built reusable UI components using **Functional Components and React Hooks** with responsive design for all devices.
- Integrated live project deployments and GitHub links for streamlined project navigation and presentation.

Choco Magic Website | HTML, CSS

<https://choco-magic.vercel.app/>

- Developed a fully responsive business website showcasing products and services with a modern UI design.
- Implemented clean and structured layouts using **HTML5 and CSS3** for improved user experience.
- Optimized webpage responsiveness across desktop and mobile devices.

Watch Warriors E-Commerce Website | HTML, CSS, JavaScript

<https://naveenkumar9898.github.io/watch-warries/>

- Built a responsive e-commerce-style website allowing users to browse watch collections and categories.
- Implemented interactive features using **JavaScript** to simulate product selection and order placement.
- Designed dynamic UI components to improve user engagement and navigation flow.

TVK ID Card Management Application | React.js

<https://tvk-id-card.vercel.app/>

- Developed a responsive web application using **React.js** for digital ID card management.
- Implemented **CRUD operations** for creating, updating, viewing, and deleting user records.
- Built reusable React components and managed application state efficiently.

TECHNICAL SKILLS

Frontend Development: React.js, HTML5, CSS3, JavaScript (ES6+)

CSS Frameworks: Bootstrap, Tailwind CSS

Libraries: jQuery, Axios

Backend Development: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Vercel

Concepts: REST APIs, CRUD Operations, Responsive Design, Component-Based Architecture, Authentication & Authorization

EDUCATION

Bachelor of Engineering (B.E) — Computer Science and Engineering

Vetri Vinayaha College of Engineering and Technology | 2022 – 2025

Diploma in Electrical and Electronics Engineering

MIT Polytechnic College | 2018 – 2021

CERTIFICATIONS

MERN Stack Developer Certification — SDLC Skill Development Learning Center, Trichy | 2026
